THINGS I’VE DONE

- Organized pub quizzes several times per term
- Member of May Ball Design Team
- Planned finals week stress relief events while at University
- Deputy Bar Manager (So I’m usually around)

Nominated by: Hattie Stacey
Seconded by: Andrea Di Antonio

ABOUT ME:

I am a first year PhD student in Materials Science. I’m an overseas student, and I learned how to navigate the NHS after getting hit by a car while cycling. I hope to provide everyone with access to information about welfare in Cambridge and in the UK, and to represent the interests of female-identifying students at the college and university level. I usually can be found knitting in the Pfeiffer room if you need someone to talk to :)
