

Anna Koelle

For MCR Treasurer

About me

I am a second year BA student in Economics from Duesseldorf, Germany and this year's MCR Academic Officer. B

Before starting with university I did an apprenticeship at Deutsche Bank. During that time I learnt the basics of accounting as well as the basics of management.

As your Treasurer I would be responsible for looking after the MCR finances and making sure that everything, s. a. societies as well as social events and sports teams, are funded.

My experience in the bank, now studying Economics and being this year's academic officer have taught me on how to manage a budget as well as how to deal with the challenges of a budget constraint.

We at Hughes are such a great and diverse group of people who have various backgrounds and are engaged in different disciplines. Hence there are always many great ideas regarding new social as well as academic events.

My goals

Taking on the role as Treasurer I would be thrilled to help find a way to bring these ideas to life.

My goals:

1. Reviewing the current expenses and optimize the budget.
2. Supporting the events that were successful last year to be continued and properly funded.
3. Encouraging new events with an optimized budget.
